

ENGINEER: CIVIL/STRUCTURAL

STEPHEN R. TELIGA, P.E.
Engineering Design & Testing Corp.
Post Office Box 940520
Maitland, Florida 32794-0520
Telephone: (407) 865-9900
Email: steliga@edtengineers.com

EDUCATION:

2001 Bachelor of Science, Civil Engineering
University of Central Florida, Orlando, Florida

EXPERIENCE:

October 2009 to Present **Engineering Design & Testing Corp.
Orlando, Florida**

Consulting Engineer. Consultation in the area of civil/structural engineering to determine cause and scope of damage to buildings and structures, including assessment of storm, moisture/water intrusion, and fire damage. Development of cost estimates for structural repairs. Evaluation of design and construction methods/materials for building code compliance.

October 2002 to June 2009 **Lindemann Bentzon Bojack Engineering Inc.
Clermont, Florida**

Structural Engineer. Structural design utilizing a variety of building materials including steel, concrete, masonry, and wood. Reviewed shop drawings and coordinated structural drawings. Proposals for engineering and construction management services. Setup subcontractor meetings to present scope of work and owner obligations. Projects included multi-story condominiums, townhomes, office buildings, shopping centers, and single family homes.

June 1997 to August 2002 **HB Associates LLC
Winter Park, Florida**

Staff Engineer. Structural design of residential and commercial structures including single family homes, elevated race tracks, office buildings and a twenty-five story hotel. Reviewed shop drawings and coordinated structural drawings. Proposals for engineering services.

November 1995 **HEDJ Engineering Inc.**
to June 1997 **Sarasota, Florida**

Civil Technician. Land development for subdivisions and commercial project sites including sewer, potable water, and storm water design. Reviewed shop drawings and conducted traffic studies.
