

ENGINEER: STUCTURAL/CIVIL

J. DAVID HORNE, P.E.
Engineering Design & Testing Corp.
Charleston District Office
Post Office Box 50368
Summerville, SC 29485
Telephone: (843) 832-1052
dhorne@edteningeers.com

EDUCATION:

1996 Bachelor of Science, Civil Engineering
University of Central Florida, Orlando, Florida

1993 Associate of Art
Valencia Community College, Orlando, Florida

1982 Associate of Applied Science
Tri-Cities Technical Institute, Blountville, Tennessee

EXPERIENCE:

October 2000 **Engineering Design & Testing Corp.**
To Present **Charleston, South Carolina**

Consulting Engineer. Specialized consulting in the area of structural engineering for commercial, industrial, and residential structures including cause and origin of collapsed structures, wind, flood, fire and settlement damage, construction losses, analysis of costs to repair or replace, evaluation and analysis of construction disputes. Provide investigations to determine the cause and origin of fires.

September 1996 **Bowen Engineering Corp.**
To October 2000 **Orlando, Florida**

Structural Engineer and Project Manager. Performed conceptual and detailed structural design and detailed structural analysis for multimillion dollar commercial, educational, and residential projects.

CONTINUING EDUCATION:

Engineering Analysis of Failure: Determination of Cause in a Legal Environment, Engineering Design & Testing Corp., 2017

MSE Retaining Walls – Design and Analysis, Engineering Design & Testing Corp., 2017

Ballast Water Management: Background, Practice and Legislation, Engineering Design & Testing Corp., 2017

Technological Review of Unmanned Aerial Vehicles (UAVs) and Their Uses, Engineering Design & Testing Corp., 2017

Florida State Board of Engineers Rules, Laws and Ethics provided by Failure & Damage Analysis, Inc., 2017

Marine, Cargo and Stock Throughput Insurance, Engineering Design & Testing Corp., 2016

A Primer Regarding Blast Loads on Structures, Engineering Design & testing Corp., 2016

BCD420 International Building Code (IBC) Essentials for Wood Construction Based on the 2015 IBC, American Wood Council, 2016

Earthquakes – Key Concepts to Aid in Damage Evaluation, Engineering Design & Testing Corp., 2015

Non-Invasive Structural Repairs and Retrofit – Utilization of Carbon Fiber Reinforced Polymers for Structural Enhancements, Engineering Design & Testing Corp., 2015

On Thin Ice – Building Failures During Winter, Engineering Design & Testing Corp., 2015

Federal Rules of Civil Procedure (FRCP) Rule 26 – Expert Reports, Engineering Design & Testing Corp., 2015

Americans with Disability Act and Resulting Accessibility Standards, Engineering Design & Testing Corp., 2015
