

## **CONSULTING ENGINEER**

**GLENN STEWART, M.E., P.E.**  
Engineering Design & Testing Corp.  
Post Office Box 8027  
Columbia, South Carolina 29202  
Telephone: (803) 791-8800  
gstewart@edtengineers.com

## **EDUCATION:**

1994 M.E., Civil Engineering, Clemson University, Clemson, South Carolina  
1985 B.S., Civil Engineering, North Carolina State University, Raleigh, North Carolina

## **EXPERIENCE:**

July 1993 to present **Engineering Design & Testing Corp., Columbia, South Carolina,**  
Consulting Engineer  
Columbia District Engineering Manager (1996 through 2003)  
Columbia and Charleston Districts Engineering Manager (2016 through 2018)  
Southeast Regional Engineering Manager (2018 through Current)

Investigation of cause of structural damage, including collapsed and sagging roofs, cracked walls, twisted members, cracked pavements and damaged foundations. Analysis to the affects of construction vibration, high winds, consolidating soils, moisture exposure, inadequate designs, heavy snows and construction deficiencies. Investigation of accidents involving cranes and rigging. Development of cost estimates for structural repairs; including buildings, retaining walls, bridges, and storage tanks. Development of repair estimates for structural repairs; including buildings, retaining walls, bridges and storage tanks. Evaluation of structures for building code conformance; including methods of construction, construction materials, compliance to safety requirements and structural design. Evaluation of building sites. Load testing and analysis of structural components. Evaluation of the integrity of damaged structures and development of scope of damage assessments. Evaluation and testing of fluid system components including pumps and tanks. Investigation of the origin and causes of structural fires.

August 1985 to July 1993 **Charleston Naval Shipyard, Charleston, South Carolina,**  
Nuclear (Civil) Engineer

Design and issue plans and specifications for the fabrication, modification and maintenance of industrial facilities. Engineering of structural and fluid system projects. Structural projects requiring knowledge of analysis, design, metal construction techniques and construction codes. Fluid system projects include the design of supply and waste water systems and require knowledge of pump sizing, head loss determination, motor starter sizing, as well as stainless steel

## **CURRICULUM VITAE:**

**GLENN STEWART, M.E., P.E.**

**PAGE 2**

fabrication and machining techniques. Responsible for the engineering and design of hundreds of lifts made by various types of cranes utilizing various types of rigging arrangements. Supervise shipyard's effort on assigned projects to accomplish facility improvements and maintenance involving breathing air, supply and waste water systems, clean area requirements, radiological controls, HEPA filtered ventilation, hazardous material work controls, architectural, load lifting equipment and rigging, OSHA worker safety requirements and construction management. Development of schedules, costs estimates and preliminary design presentations. Development of long range budgets for performance of complex engineering projects. Verification of satisfactory in-progress and completion status of projects. Analyze structural systems utilizing finite element based software.

May 1982  
to August 1985

**Charleston Naval Shipyard, Charleston, South Carolina,**  
Civil Engineering Cooperative Education

Drafting of mechanical and structural drawings, design basic industrial type equipment, and conferring with production shops during fabrication.

## **PROFESSIONAL ORGANIZATIONS:**

- American Society of Civil Engineers
- International Code Council

## **REGISTRATIONS:**

Registered Professional Engineer in South Carolina (#13962)  
Registered Professional Engineer in North Carolina (#021799)  
Registered Professional Engineer in Georgia (#PE23265)  
Registered Professional Engineer in Florida (#55633)  
Registered Professional Engineer in Virginia (#0402 037802)  
Registered Professional Engineer in Alabama (#26203-E)  
Registered Professional Engineer in Ohio (#69430)  
Registered Professional Engineer in Louisiana (#32033)  
Registered Professional Engineer in Mississippi (#17322)  
Registered Professional Engineer in Tennessee (#112671)  
Registered Professional Engineer in Illinois (#062.061490)  
Registered Professional Engineer in Michigan (#6201060909)  
National Council for Engineering and Surveying, (#18-622-62)

**CONTINUING EDUCATION:**

- “Ethics for Professional Engineers”, SC Engineering Conference, June 2015
- “Drilled Displacement Pile Performance”, SC Engineering Conference, June 2015
- “NCMA SRW Design & Construction Best Practices Guide”, SC Engineering Conference, June 2015
- “Soil Stabilization Through Structural Resin Injection”, SC Engineering Conference, June 2015
- “PCI-Special Inspection of Precast Concrete Structures”, SC Engineering Conference, June 2015
- “Asphalt Pavement Design Guide”, SC Asphalt Pavement Association, October 2014
- “Construction of Residential Buildings in Coastal Areas”, Decatur Professional Development, December 2011
- “Maintenance of Concrete”, Decatur Professional Development, December 2011
- “Rotating Equipment and Predictive Maintenance”, ED&T Seminar, September 2011
- “Earthquakes-Key Components to Aid in Damage Evaluation”, ED&T Seminar, February 2011
- “Warnings vs. Instructions”, ED&T Seminar, February 2011
- “Engineering Ethics Seminar”, ED&T Seminar, February 2011
- “Assessment and Repair of 155 Year-Old Heavy Timber Trusses In Historic Building”, SEA of SC-Columbia, Chapter, October 2010
- “Structural Steel and Fire Damage Assessment (Presenter)”, SEA of SC-Columbia Chapter, October 2010
- “ADA Guidelines: Accessible Routes”, RedVector, Inc., February 2010
- “ADA Guidelines: General Site and Building Elements”, RedVector, Inc., February 2010
- “Basement Foundation Walls”, ED&T Seminar, February 2010
- “HVAC Design and Components”, ED&T Seminar, February 2010
- “The Engineer’s Role in Loss Valuation”, ED&T Seminar, February 2010
- “Asphalt Pavement – Design Basics”, RedVector, Inc., December 2009
- “Concrete 3: Methods, Materials, and Maintenance”, RedVector, Inc., December 2009

**CURRICULUM VITAE:**  
**GLENN STEWART, M.E., P.E.**

**PAGE 4**

- “Interior Codes 4: Means of Egress”, RedVector, Inc., November 2009
- “Alternate Means and Methods as Provided by the ICC”, ED&T Seminar, February 2009
- “You Can Judge a Roof by Its Cover”, ED&T Seminar, February 2009
