

EDUCATION

- 1968 **Bachelor of Science in Mechanical Engineering**
Texas A&M University
- 1974 **Masters of Science in Mechanical Engineering**
Purdue University
- 1984 **Additional Graduate Work**
University of Houston

EXPERIENCE

- 1989 to Present **Engineering Design and Testing Corp.**
Houston, Texas

Engineering Manager

Senior Consultant performing specialized consulting in the areas of: Analysis of operational, mechanical, and metallurgical failures. Functional testing of mechanical equipment and testing of engineering materials to determine mechanical and physical properties. Mechanical design, materials application, inspection, and testing. Analysis and evaluation of property and equipment damage. Investigation of industrial, construction and agricultural accidents.

Experience areas include petroleum refining, petrochemicals, heavy chemicals, fertilizer, fine chemicals, independent power, electrical utilities, pipeline, industrial gas, water utilities, plastic processing, building materials, pulp & paper, wood products, oil & gas exploration and production, construction, agricultural operations and commercial/ industrial mechanical systems.

Equipment familiarity includes pressure vessels, piping, turbomachinery (steam, gas, wind, hydro & hydraulic turbines, axial & centrifugal compressors, turboexpanders), reciprocating machinery (engines, compressors, pumps), electrical generators (thermal, wind & hydro), furnaces (boiler, reformer, superheat, process heaters), pumps (centrifugal, displacement, eductor), oil & gas drilling and production (hoisting, drill stem, mud handling, well control, OCTG, completion, wellheads, separation, processing), off-road equipment (tractors, combines, pickers, mobile cranes, bulldozers, scrapers) and materials handling (conveyors, packaging, crushing/grinding).

- 1983 to 1989 **T H Hill Associates**
Houston, Texas

Engineering Manager and Vice President of Engineering

Provided technical assistance for qualification and inspection of oilfield equipment manufactured from carbon and low alloy steels, 12-13 Cr steels, duplex and austenitic stainless steels, austenitic alloys, nickel base alloys, and titanium alloys.

Wrote quality assurance standards for Oil Country Tubular Goods (OCTG), line pipe, drilling equipment and associated equipment. Investigated operational, mechanical, and metallurgical failures of OCTG, line pipe, drilling equipment, and associated equipment. Performed quality audits of manufacturing facilities. Managed project sized quality assurance programs for critical service equipment applications. Provided expert witness testimony.

1981 to 1983

P A Inc. – Plastic Applicators
Houston, Texas

Design and Development Manager and Project Manager

Managed design and drafting of internal coating process equipment. Designed flexible lance system and metering pump system. Redesigned, assembled and tested prototype metering pump system. Investigated new and existing processes for application and improvement of production. Developed work control and memorandum accounting procedures.

1979 to 1981

Staff, Commander Naval Construction Battalions
U.S. Atlantic Fleet, Norfolk, Virginia

Program Manager

Developed and implemented multi-year program of 150 overseas construction projects. Managed and/or coordinated design, estimating, funding, procurement, and resource identification. Quantified, analyzed, and corrected deficiencies in program execution.

1976 to 1979

Atlantic Division, Naval Facilities Engineering Command
Norfolk, Virginia

Contract Administrator

Managed construction contracts. Monitored and evaluated contractor progress. Coordinated inspections, quality control, design changes, and fiscal control. Analyzed, negotiated, and prepared contract changes.

1974 to 1976

U.S. Naval Station
Midway Islands

Assistant Director – Public Works

Managed daily operations of 100-employee department that provided public works, public utilities, public housing and transportation services. Programmed and executed maintenance and utilities operations for all island facilities.

1973 to 1974

Purdue University
West Lafayette, Indiana

Graduate Studies in Mechanical Engineering.

1971 to 1973

Naval Facility Centerville Beach
Ferndale, California

Public Works Director and Contract Administrator

Managed daily operations of 20-employee department providing public works, public utilities, public housing and transportation services. Prepared and managed construction contracts. Monitored and evaluated contractor progress. Coordinated inspections, quality control, design changes, and fiscal control. Analyzed, negotiated, and prepared contract changes.

- 1969 to 1971 **U.S. Naval Mobile Construction Battalion SIXTY-TWO**
Gulfport, Mississippi
Embarkation Officer and Material Liaison Officer
 Managed movement (air, sea and land) of 562-man combat engineering battalion to and from Vietnam and Puerto Rico. Ordered, received, stored and issued construction materials for all types of vertical and horizontal construction projects.
- 1968 to 1969 **Mason & Hager – Silas Mason Co., Inc.**
Amarillo, Texas
Design Engineer
 Designed assembly tooling and mass parameter measurement equipment.

REGISTRATIONS and CERTIFICATIONS

Registered Professional Engineer in Texas (#45137)

PROFESSIONAL ORGANIZATIONS

American Petroleum Institute, Exploration & Production Department, Subcommittee on Tubular Goods (SC5), Drill Stem Equipment (V07)

American Petroleum Institute, Exploration & Production Department, Subcommittee on Drilling Structures & Equipment (SC8), Drilling & Well Servicing Structures (V04F); Chains & Sprockets (V07F), Drilling Equipment (V07K), Hoisting Equipment (V08A), Wire Rope (V09A)

American Society for Nondestructive Testing

American Welding Society

ASM International

ASME International

NACE International

NACE Specific Technology Group on Chemical and Mechanical Cleaning (STG-06)

NACE Specific Technology Group on Oil and Gas Production – Metallurgy (STG-32)

NACE Specific Technology Group on Petroleum Refining and Gas Processing (STG-34)

NACE Specific Technology Group on Process Industry – Chemicals (STG-36)

NACE Specific Technology Group on Process Industry – High Temperature (STG-37)

NACE Specific Technology Group on Process Industry – Materials Applications (STG-39)

Society of Petroleum Engineers
